Dean – water

A water line was installed incorrectly and will probably go out soon. GA Rich will need to come fix it. At Carr residence Dean had to replace some things, Mary will send the Carr's a bill for repairs. There has been a problem with the IEPA sending emails related to reports not being sent in by our Licensed Operator. He also hasn't kept his state license current.

Joe Dehn has asked for some board members to take over working on updating the application for a grant to help pay for needed water plant repairs and needed updates. Bill Welk and Barb Borg are willing to be part of this committee but still need another person. If anyone else on the board is willing to help, we can get started on this much needed process to be finished. Please contact Bill or Barb!
